

Sebastián Díaz Tamayo

Data Analyst | Visual Storyteller | Insight Architect

Madrid, Spain | nholasebsas@gmail.com | LinkedIn: sebastiandiaztamayo | GitHub: nholasebsas

Professional Summary

I'm a junior data analyst with a strong autodidact mindset, passionate about transforming raw data into actionable insights. With hands-on experience at Amazon and a formal background from Correlation One, I specialize in analyzing logistics data, building impactful dashboards, and uncovering patterns to drive strategic decisions. I continuously expand my technical skills and thrive in dynamic, data-driven environments.

Technical Skills

- SQL, Python (Pandas, Numpy), Excel, Tableau, Power BI
- HTML, CSS, JavaScript for dashboard development
- Data visualization, storytelling, KPI tracking, logistics reporting

Professional Experience

- Amazon Spain – Junior Data Analyst (Operations Analyst)
 - Led real-time logistics analysis for fleet optimization
 - Developed dashboards in Tableau and Excel to improve KPI tracking
 - Used SQL to identify inefficiencies and support process improvements
 - Coordinated with cross-functional teams to implement data-driven solutions

Education

- Correlation One – Data Analytics Certificate Program

Focus: SQL, data storytelling, business cases, team collaboration
